Biographical Information

Born January 21, 1912 to Ida and Emil Anson, Abraham Anson attended New York City University before joining the army. During his service, Anson would attain the rank of Lieutenant Colonel as well as make significant contributions to the training of incoming recruits. He retired from the army on January 21, 1972. Anson was paramount in the designing of equipment with the Army Corps of Engineers that aided in mapping.

Anson was an incredibly active member with the American Society for Photogrammetry and Remote Sensing and also has a memorial scholarship in his name. Along with his significant contributions to the world of photogrammetry, the process of measuring distances between objects through the utilization of photography, Anson was extremely adept at surveying and mapping, and was a very talented painter. Abraham Anson passed away May 29, 2005.
