Abstract

The John N. Warfield papers consist of materials from Warfield's long and distinguished career, including papers authored and co-authored by Warfield, presentations, videotapes, audiotapes, and correspondence.

Creator

John N. Warfield, 1925-2009

Physical Characteristics

98 linear feet (99 boxes)

Repository

George Mason University. Special Collections and Archives.

Administrative Information

Access Restrictions

Collection is open to research.

Use Restrictions

There are no restrictions.

Acquisition Information

Donated in 1999 and subsequent donations.

Processing Information

Processed by David Houpt in 2008-2009.

Preferred Citation

John N. Warfield papers, Collection #C0016, Special Collections and Archives, George Mason University.

Alternative Form Available

There are numerous documents from the collection, including video, that are available through [The John N. Warfield Digital Collection](#).

Adjunct Descriptive Data

Related Material

Special Collections and Archives created a web exhibit on the life and work of John Warfield called [Attacking Complex Problems](#).

Biographical Information

John N. Warfield was educated in mathematics and electrical engineering. He worked in eight universities and in three industries. Early on, he concentrated on teaching but later focused his energies on research. His publications include books on computers and complexity reflecting his development of systems science, incorporating a system for managing complexity. Understanding complexity, Warfield discovered, depended on a theory of thought about thought merged with empirical evidence of human behavioral pathologies and the application of design concepts in groups. Warfield's scientific research emphasized adherence to established criteria for scientific work, drawing inspiration from numerous well-known scholars, most especially Charles S. Peirce. Other scholars adopted his theories and methodologies, applying his research results in many locations and on many projects, invariably involving complexity. Their work provided ample and significant empirical evidence to support hypotheses and theories developed through his scientific endeavors, verifying the theoretical foundations of his scientific investigation. He also applied the results of his research to all levels of education with special attention paid to the shortcomings of higher education and requirements for adapting it to modern necessities.

Scope and Content

The John N. Warfield papers consist of materials from Warfield's long and distinguished career, including papers authored and co-authored by Warfield, presentations, videotapes, audiotapes, and correspondence.

Series 1 consists of textual materials such as unpublished papers, correspondence, lecture notes, and project reports. These materials were donated between 1999 and 2006.

Series 2 is comprised of audiovisual materials including filmed lectures and workshops.

Series 3 contains transparencies and other teaching materials.

Series 4 consists of materials deposited after January 2007.

List of Acronyms in the John N. Warfield Collection

AAAS - American Association for the Advancement of Science

ACAC - Academic Computing Advisory Committee

ADH - Advanced Decision Handling, Inc.

AI - Artificial Intelligence

AIO - Americans for Indian Opportunity

AIIM - American Institute for Interactive Management

AIO - Americans for Indian Opportunity
AIS - Association for Integrative Studies
APT - Analytical Power Train (Ford Motor Company)
ASC - American Society for Cybernetics
C3P - Computer Aided Design, Computer Aided Manufacturing, Computer Aided Engineering, Product Information Management
CAD - Computer Aided Design
CAM - Computer Aided Manufacturing
CAE - Computer Aided Engineering
CIM - Center for Interactive Management
CIMI - Cent for Interactive Management India
CIT - Center for Innovative Technology
DSMC - Defense Systems Management College
FMC - Ford Motor Company
IASIS - Institute for Advanced Study in Integrative Sciences
IIT - Institute for Information Technology
IM - Interactive Management
IPAC - International Programs Committee
ISM - Interpretive Structural Modeling
ISSS - International Society for Systems Science
ITESM - Instituto Tecnológico y de Estudios Superiores de Monterrey
ITRC - Information Technology Research Council
NCMS - National Centre for Manufacturing Services
NGT - Nominal Group Technique
NMFS - National Marine Fisheries Service
NSF - National Science Foundation
OPMS - One Page Management Systems
ORSA - Operations Research Society of America
PIM - Product Information Management
PIP - Process Improvement Plan
SGSR - Society for General Systems Research
TCS - Tata Consulting Services
TIPP - The Institute of Public Policy
UNI - University of Northern Iowa

Index Terms

Persons:

Warfield, John N.

Corporate Names:

Center for Interactive Management.

George Mason University. Institute for Advanced Study in the Integrative Sciences.

Subjects:

Complexity (Philosophy)

Education, Higher.

Interactive Management.
Policy Sciences.
Problem Solving.
Social Science--Methodology.
System Design.

Arrangement

Organized into four series:

- Series 1: Textual Material, 1943-2001 (Boxes 1-51)
- Series 2: Audiovisual Materials, 1978-2000 (Boxes 51-71)
- Series 3: Transparencies and Other Teaching Materials, 1979-2005 (Boxes 72-88)
- Series 4: Additional Materials Deposited After 1/2007, 1931-2009 (Boxes 89-99)

Contents List

Series 1: Textual Materials

Unit Date 1943-2001

Extent

(51 boxes)

Scope and Content

The documents in this series consist of a number of published and unpublished papers spanning Warfield's entire career. There are also correspondence, lecture notes, and project reports. Materials were donated before 2006.
