Biographical / Historical

The collection documents the history of James Madison University from its founding 1908 to present day.

Scope and Contents

The James Madison University vertical files comprise 153 folders that contain printed ephemera related to James Madison University. The vertical files are an artificial collection of loose materials such as pamphlets, newspapers, posters, brochures, etc. that relate to the history of the university since its founding in 1908. The vertical files are arranged according to subject and focus on specific persons, topics, events, places and buildings, university departments, etc.

The vertical files cover a wide range of topics, some center on the student experience while others document university level events and planning. From Greek life to Glee club, certain files center on the student experience taking place within the university. Some such subjects are the African-American experience starting in 1980 to the LGBTQ+ pamphlets that were created in 2018. At the university level, there are files dedicated to specific events and administration planning. Some examples are the orientation programs and the commencement planning files.

Materials of note include the contents in the fine arts festival file which contains ephemera from 1958-1992 and has items such as a brochure from 1975 entitled "Portrait of a Period: an Exhibition of Madisonian

Costumes," which overviews an exhibit on costumes through the age of the university. A paper titled "Wanted! Academic Freedom," found in the Convocation file, was passed out after convocation to protest the firing of three teachers.
