Access

Collection is open for research; access requires at least 48 hours advance notice. Because of the nature of certain archival formats, including digital and audio-visual materials, access will require additional advanced notice. Copies of digital files will be provided for use upon request.

Use of Materials

The nature of the Hampden-Sydney College Archives and Special Collections means that copyright or other information about restrictions may be difficult or even impossible to determine despite reasonable efforts. As a result, Hampden-Sydney College claims only physical ownership of most Special Collections materials.

The materials from our collections are made available for use in research, teaching, and private study, pursuant to U.S. Copyright law. The user must assume full responsibility for any use of the materials, including but not limited to, infringement of copyright and publication rights of reproduced materials. Any materials used for academic research or otherwise should be fully credited with the source.

This collection may contain materials with sensitive or confidential information that is protected under federal or state right to privacy laws and regulations. Researchers are advised that the disclosure of certain information pertaining to identifiable living individuals represented in this collection without the consent of those individuals may have legal ramifications (e.g. cause of action under common law for invasion of privacy may arise if facts concerning and individual's private life are published that would be deemed highly offensive to a reasonable person) for which the College assumes no responsibility.

Administrative History

The science departments, Biology, Chemistry, and Physics & Astronomy, have moved a couple times in their history at Hampden-Sydney, having three homes within the past century. In 1922, the science departments moved into what would be called Bagby hall by 1930. The new science building brought an influx of student interest and by 1966, college enrollment was nearly 600. The higher enrollment was almost four times the size of what Bagby was created to hold which meant that a new building was needed. After planning and construction, the new building, only 200 yards away, opened in 1968. It was named Gilmer Hall in 1970. With the new space, came new hires, including Dr. Herbert J. Sipe. Gilmer Hall was the home for the science departments for quite a while but eventually these facilities were out of date as well and the science departments once again had to pack up and move. In 2022, the new Pauley Science Center opened its doors and Gilmer Hall was closed.

Content Description

Content Description

The Science Building Records (Gilmer Hall) 1941-1971, collection contains correspondence, proposals, memoranda, architectural drawings, and alcohol permits relating to the building and maintenance of a science building on campus known as Gilmer Hall. Not included in the collection are documents regarding individual department purchases or information about the current science building, Pauley Science Center. Also included are some documents regarding Herbert Sipe and the chemistry department.
