Administrative Information

Conditions Governing Access

All materials in this collection are available for public access unless otherwise noted. Restrictions on access are made in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the Family Educational Rights and Privacy Act of 1974 (FERPA), the Virginia Freedom of Information Act, and any related policies or regulations.

Conditions Governing Use

Unless otherwise noted, the University of Virginia owns the copyright to the materials in this collection that have not yet entered the public domain. You are free to use collection materials in any way that is permitted by the copyright and related rights legislation that applies to your use. For other uses you need to obtain permission from the rights-holder(s).

Processing Information

RG-17-2 includes records from legacy collections held by the Claude Moore Health Sciences Library, including the UVA Health System Marketing Communications collection (MS-68). RG-17-2 also includes materials previously cataloged as separate items in Virgo (such as journals, newsletters, and reports) and from semi-processed legacy accessions held by the Claude Moore Health Sciences Library.

Description of Subordinate Components

Legacy collections

Unit ID RG-17-2-1

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/59811

Conditions Governing Access

Access restrictions may differ between the collections filed in this series.

Conditions Governing Use

Copyright restrictions may apply.

Scope and Contents

Prior to the establishment of the records classification scheme outlined in this document, institutional archives were often organized by their office of creation. Rather than dividing some legacy collections,

they are being kept intact and filed under this series.

Arrangement

Department and Legacy collections are arranged into subseries. The subseries are then arranged alphabetically. The arrangements of the files and items in each subseries vary by collection.

Annual reports

Unit ID RG-17-2-2

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/59812

Conditions Governing Access

There are no restrictions on access to the annual reports.

Conditions Governing Use

The University of Virginia owns the copyrights to Medical Center annual reports.

Scope and Contents

This series consists of annual reports prepared by the departments, centers, and offices of the University of Virginia Medical Center. Does not include individual faculty annual reports used for evaluation or review.

Arrangement

Annual reports are arranged according to the department or unit described in the reports. Each department is assigned a file. The files are arranged in their series alphabetically by their title. Inside the files, reports are arranged in chronological order by the date of creation for the reports. Annual reports for the Medical Center as a whole will be placed at the beginning of the series regardless of its position alphabetically in the series.

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/59814

Conditions Governing Access

There may be restrictions on access to some of the planning documents and reports.

Conditions Governing Use

Copyright restrictions may apply.

Scope and Contents

This series consists of historically significant reports documenting the planning of administrative changes or projects, major purchases, and events of the Medical Center.

Arrangement

In this series, a file is created for each planning report and its associated documents. Occasionally sub-series may be used to group projects of particular significance or size. The files are arranged chronologically by the date of creation for the materials they contain.

Unit ID RG-17-2-7

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/48555

Scope and Contents

This series consists of motion pictures or videos prepared by or for the University of Virginia Medical Center for a specific purpose (e.g. promotional videos). Does not include commercially available material.

Final accreditation files

Unit ID RG-17-2-8

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/48556

Scope and Contents

This series consists of the final records of formal accreditations of the University of Virginia Medical Center, its departments, and its programs. This series may include, but is not limited to: self-study reports, final reports, and questions and responses.

Photographs and negatives

Unit ID RG-17-2-9

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/59817

Conditions Governing Access

There may be restrictions on access to some photographs and negatives.

Conditions Governing Use

Copyright restrictions apply to some materials.

Scope and Contents

This series consists of historically significant photographs and/or negatives of Medical Center events, activities, and people. This does not include employee identification photographs, though may include photographs used in faculty directories.

Arrangement

The photographs and negatives are arranged into subseries by either subject or office of creation. The

subseries are then arranged alphabetically by title. The arrangements of the files in the subseries vary.

Legacy and departmental materials

Unit ID [Archival Resource Key](#)

Unit ID /repositories/7/archival_objects/177959

Unit Date 1857-2006

Conditions Governing Access

Access restrictions may apply to some photographic materials.

Conditions Governing Use

Some images may be subject to copyright restrictions.

Scope and Contents

Material in this sub-series was originally processed into legacy collection MS-68: University of Virginia Health System Marketing Communications records. These materials were processed prior to the use of ArchivesSpace and the use of RG-17-2 classifications. Because of their significant quantity, materials have been left according to their previous arrangement, which may differ from other content in the Photographs and negatives series.

The original "Scope and Contents" note for legacy collection MS-68 reads: The University of Virginia Health System Marketing Communications collection consists of 5 series. Series I through Series IV contain 737 processed folders in 6 records boxes. The images in this collection were created by and/or for the University of Virginia Health System's Department of Marketing Communications to document the people, premises, and events of the UVA Health System, the UVA School of Medicine, and the UVA School of Nursing. These four series hold photographic prints, negatives, and slides, and also contain some published materials and assorted Marketing Communications papers and correspondence related to past Marketing Communications publications. The images provide a visual history of the University of Virginia's work in medical education and medical care throughout the twentieth century. Series V of the collection contains 4 boxes of unprocessed slides, image CDs, and zip disks. At the time of processing some non-Health System materials present with the original acquisition were transferred to the Albert and Shirley Small Special Collections Library and the Arthur J. Morris Law Library.

Note that due to necessary changes in the description and arrangement of the materials, the 5 series described in the original text are no longer in use.

Arrangement

The records in this sub-series are arranged into files according to subject matter. Much of the content is organized according to the department associated with the content, and these files are arranged alphabetically. Following these departmental materials, other content is organized by descriptive category. Within the topical files, items are arranged chronologically, where possible.

Unit ID /repositories/7/archival_objects/59819

Conditions Governing Access

There are no restrictions on access to materials in this series.

Conditions Governing Use

Copyright restrictions may apply.

Scope and Contents

This series consists of audio or visual recordings, created by or for the University of Virginia Medical Center, that are of an enduring historically significant nature or that describe the current function or organization of the agency's major administrative units. Commercially available material may be included, if appropriate. Does not include recordings used in lieu of minutes or as temporary transcripts of minutes.

Arrangement

Material is arranged alphabetically by the title of the program or media file. If one program consists of multiple recordings or videos, these will be collected under a single file.

Processing Information

The collection was processed and entered into the Department's Manuscripts database (Access) in June and July of 2002 and processed by Hal Sharp of the Historical Collections and Services Department.

Between 2024 and 2026, the collection was reprocessed and redescribed by archivist Amanda Greenwood and curator Meggan Cashwell.

Biographical / Historical

Established in 1901, the University of Virginia Hospital opened with a single structure incorporating an operating theater, solarium, laboratories, and accommodations for the superintendent and student nurses. In 1902, beds for 25 patients were installed. Two pavilion wings, added in 1905 and 1907 to each side of the main building, contained large wards for patients, a small number of private rooms, storage and

kitchen facilities, and interns' quarters.

Expansion of the physical plant resumed in 1916 with the completion of the Steele Wing to the north of the 1907 pavilion. The largest building to date, the Steele Wing doubled the capacity of the hospital and accommodated in its basement the Outpatient Department, relocated from another nearby structure. In 1924, the McIntire Wing was built to the south of the 1905 pavilion, containing obstetrical and pediatric services and interns' quarters. To the south of the McIntire Wing, the Teachers' Preventorium of 1928 was opened to provide low-cost healthcare for the state's teachers. The next year a substantial addition to the Hospital complex—incorporating the existing Steele Wing—was erected to house the Medical School.

Steadily increasing usage of medical services throughout the years of the Depression put considerable pressure on the Hospital's facilities. Consequently, over the decade of the 1930s and the first years of the 1940s, the Hospital raised funds for substantial building campaigns to expand and modernize the complex. The first of these buildings was McKim Hall, for the Nursing School. Begun just before the Depression, in 1929, McKim was completed in 1931.

The second building campaign involved the construction of an addition to the west side of the McIntire Wing. This large structure, completed in 1936, was dedicated to Dr. Paul B. Barringer, who had been instrumental in the founding of the Hospital. The Barringer Wing contained an additional obstetrical ward and rooms for private patients. In 1939, the third building campaign resulted in the extensive renovation of the Teachers' Preventorium. Two floors with an attic and roof deck were constructed on top of the existing structure, as well as a five-story section added to the west end. These modifications housed the John Staige Davis Department of Neurology and Psychiatry. Shortly after the completion of the Davis Wards, the Hospital added a residential facility for interns, the fourth new construction project. The House Staff Quarters, as this building came to be known, opened in 1941; it was destroyed in 1986 to make way for the link to the present main Hospital building.

The final and most extensive building campaign of this decade-long period was the construction of the West Wing in 1941. This new building stood in the open space directly in front of the original Hospital building and its two adjacent wings, and was directly connected to all three structures. In addition to providing more functional administrative and storage spaces, the West Wing included new wards for Obstetrics and Gynecology, Surgery, Internal Medicine, Otolaryngology, and Ophthalmology. Perhaps most important, however, were the improved facilities for surgery. Six new operating rooms with related work spaces tripled the capacity of the Hospital's surgical service, and made possible for the first time night staffing of general surgery.

Also in 1941, William J. Rucker provided funding for the establishment of a Home for Convalescent Children in a turn-of-the-century residence called "West Cairns," sited on a nine-acre estate one mile west of the University Hospital. The Rucker Home opened the next year under the auspices of the Department of Orthopedics, and was ultimately replaced by a larger and more modern facility in 1956-1957, rechristened the Children's Rehabilitation Center.

In January 1958, the Virginia General Assembly released funds for the construction of a new multi-story hospital building, completed in November 1960. Supplemental expansions during this time involved new patient care, research, and administrative facilities, including an infill project behind the West Wing, requiring the demolition of all but the rear portions of the original Hospital Pavilion and the 1907 wing. Subsequent expansion in the 1970s included the construction of new buildings for the medical and nursing schools and additional outpatient facilities, and on March 20, 1989, the University dedicated a new main hospital building, the third such structure since 1901.

With the completion of the first building complex in 1907, the University of Virginia Hospital began recording patient information in a series of folios, including volumes on admissions and discharges, operating department records, surgical casebooks, and pharmacy records. These materials provide a valuable sampling of patient care diagnoses, treatments, and costs principally during the first and second decades of the hospital's operation. Additional similar materials extending into the hospital's third and fourth decades comprise records from the Department of Medicine; Eye, Ear, Nose, and Throat (EENT) surgical procedures; and death records (Mortuary Books). Materials from the Departments of Pathology and Clinical Pathology (1910 - 1970), include budget statements, statistical reports, and autopsy records. An extensive collection of Roll Books (1922 - 1966) concern nursing staff and student nurses at the hospital, and nurses at the Rucker Children's Convalescent Home, practical nursing students, and temporary hires. A supplemental deposit (1954 - 1995) comprises case histories from various thoracic and cardiovascular surgeries as well as department statistics, kept by Dr. William H. Muller, Jr.

Scope and Contents

The University of Virginia Hospital Record Books document patient care, hospital administration, and clinical operations from 1906 to 2019. This series contains record books used by the University of Virginia Hospital to record hospital admissions, student and staff listings, patient information, and medical services and procedures for various hospital departments. In addition to record books, the materials consist of papers, including annual reports, budget materials, case histories, operative notes, and statistics. These records document diagnoses, treatments, surgical procedures, patient demographics, hospital staffing, and

clinical outcomes. The collection provides insight into medical practice, hospital administration, and healthcare delivery at the University of Virginia Hospital during the 20th century.

These items include:

• Admission and discharge registers • Patient record books from clinical departments • Surgical casebooks and operating room records • Mortuary registers • Pharmacy records • Thoracic and cardiovascular surgery operation notebooks • Departmental reports, statistics, and administrative materials • Autopsy logbooks • Obstetrics and Gynecology operations logs • Birth and delivery logbooks -----
