Administrative Information

Processing Information

In the weeding process duplicates of reprints and speeches were discarded. Bills, receipts, and personal financial information documents were shredded. Several documents were moved to UVA Medical Center records. Most of the correspondence, speeches, talks, chapter articles, and reprints were organized by date into bulky notebooks. The order was retained but the notebooks were discarded. The resultant collections size was thereby reduced to approximately two-thirds of the original in terms of linear feet.

This process was repeated in 2024 when the collection was reprocessed to include new accessioned materials and previous additions to the collection that were donated during the COVID-19 pandemic.
