CNHI: Evelyn Crary Bacon Papers

Unit ID [Archival Resource Key](#)

Unit ID /repositories/8/archival_objects/28132

Unit Date 1943-1991

Extent 2 boxes, .8 linear feet

Processing Information

This collection was processed from January 2000-January 2002 by the Center for Nursing Historical Inquiry (CHNI) when they acquired the collection from Evelyn Bacon's husband, Franklin Bacon, in 1999. Processed by Aurelie Knapik, RN, MSN.

Scope and Contents

Evelyn Crary Bacon was born in Iowa in 1916 and earned baccalaureate and master's degrees from the University of Iowa School of Nursing in 1937 and 1940. From 1942 to 1945 she served in the Army Nurse Corps in the USA and in England, then taught at UCLA and the University of Iowa before enrolling in a doctoral program at the University of Chicago in 1949. Before completing her degree she married Franklin Bacon and moved to Charlottesville, Virginia, where she taught extension courses throughout the state for UVA's Cabaniss School of Nursing Education. She served as acting chair of the University's Department of Nursing Education from 1954 to 1956, then joined the faculty of the Medical College of Virginia School of Nursing in 1960. From 1965 to 1968 Bacon headed the Richmond Professional Institute and during the 1970s and 80s she taught at a number of institutions and was in demand as a consultant. Throughout her career in the state she was a recognized leader in Virginia nursing education, known for her work with the Virginia State Board of Nursing (VSBN), the Virginia Nurses Association (VNA), the Virginia League for Nursing (VLN), and the Southern Regional Education Board. Bacon was also active in the National League for Nursing (NLN). In 1985 she retired from the faculty of the J.S. Reynolds Community College in Richmond

Arrangement

Because the collection presents no clearly defined structure, it has been arranged into one roughly chronological series from 1942 through 1991. Related topical materials have been combined. This is not a comprehensive collection of Bacon's papers, but a fragmented assortment representing various phases of her personal and professional life between 1942 and 1985. Most of the collection comprises reprints, course outlines, references, and guides, with some correspondence and minutes from meetings of the VSBN and the VNA. Her career from 1955 to 1991 is highlighted in documents relating to the Richmond Professional Institute, the Medical College of Virginia, state boards, nurses associations, and junior colleges, as well as the National League for Nursing and the American Nurses Association. The material is most notable for its World War II correspondence, and for an interview of Bacon discussing her war experiences on cassette tape.

CNHI: Alice Burford Booth Papers

Unit ID [Archival Resource Key](#)

Unit ID /repositories/8/archival_objects/28133

Unit Date 1940-1967

Extent 2 boxes, .8 linear feet

Scope and Contents

Alice Burford Booth, RN, graduated from Blackstone College in 1940 and from the diploma program in nursing at the Medical College of Virginia (MCV) in 1943. In 1944 she received the bachelor of science in nursing from MCV, based on her course work at other institutions. From 1943 to 1944 she was head nurse on the psychiatric unit, then moved to New York City for post-graduate studies. Returning to MCV in 1945 as clinical instructor in psychiatry, by 1948 she had been promoted to associate professor of psychiatric nursing. After a career hiatus, she returned to MCV from 1965-1967 as instructor in psychiatric nursing in the associate degree program, which closed in 1967, then worked in the Student Health Department at MCV until her retirement in 1982.

Arrangement

The Burford Booth collection consists primarily of lecture notes, exams and educational pamphlets related to mental health and psychiatry (1940-1960), and curriculum guides for MCV. It comprises psychiatric nursing material from her days as a student and from her career as an instructor. Of some note are two 1944 letters from Johns Hopkins Hospital and Traverse City State Hospital regarding "electroshock convulsion syndrome;" pamphlets on depression, alcoholism, mental hygiene and adjunct therapies in the burgeoning field of psychiatric nursing; and the histories of Eastern State, Central State (Va.) and St. Elizabeth's Hospital in Washington, D.C., and of the Virginia Treatment Center for Children. The papers are a useful source of information on medical treatment of the mentally ill in the World War II era, and on changing attitudes toward mental illness in the medical community and society at large.

This collection has been arranged into one largely chronological series.
