The WCWM correspondence encompasses all of the administrative correspondence for running the station. This series encompasses all of the flyers and publications that WCWM created, as well as all of the newspaper articles about the station. Included in this collection are the two major WCWM publications, Metacycles in the 1970s, and Submission from 1989 through 2006. These magazines provided the campus with music news, record reviews, and band interviews. Submission magazine was reincarnated as Vinyl Tap in 2006, which is available via the library catalog. Along with those publications, this series also includes program guides, dating from the 1980s-1990s, that informed the campus about various semesters' radio programming.

These recordings are a compilation of various WCWM radio shows, public service announcements, DJ trainings, and music. Of note in this series are a reel to reel tape of WCWM coverage of the 1976 presidential election, public service announcements from the late 1980s and early 1990s, and a compact disc recording WCWM's participation in a 1975 psychology experiment.
