Had intended to write to her after Butler left, but the next morning she got a letter saying that her son William had left his uncle's house in Norfolk to go to Texas; was very upset by this news; had always had great plans for William; describes his virtues; he told her six months ago that he wanted to go to the South; he felt that he was not making enough money; told him that she wanted him to stay in Norfolk for a few more years; he was still unhappy; advised him to talk to his aunt and uncle about it; wrote privately to Mr. Souter on the subject; he told her that William was a good boy, and that he intended to pay him a salary next year and give him \$50 credit in the meantime; was happy with what Mr. Souter said; William was not pleased by the amount of the salary, as it would not be enough to pay for his board and clothes; a group of emigrants from Texas were in Norfolk, and William was very impressed by them; everyone noticed how interested he was; heard an address given by General Hunt the Texan leader; feels he formed his plan to go to Texas very quickly; Mr. Soutter was convinced that William had a good reason for leaving; William sent letters back to his uncle and to her; had Siffrein copy the letter; William wrote to her so she could send a copy to Ann; hoped to be about to reca[l] him from Texas; now is not sure what to do; asks what course Ann would take; extract from a letter of one of her friends says that William should be seen as honorable for going to Texas to better himself; Butler does not know that William went without telling anyone; leaves it up to Ann whether or not she will tell people; sends regards; the copy Siffrein made of the letter is not very good; so she will tell Ann what some parts of it said; William hopes she is not upset with him; relates him sympathy for the independence movement; he feels that there are many good men in Texas; he hope that he can help her better financially from Texas than he could have from Norfolk; he does not want to be a burden on his aunt and uncle anymore; is very upset but will trust in God that everything will turn out all right. 7pp. ALS

Does not understand the authorities in Wash[ington] have not given her the letters he wrote prior to 13 November; hopes the Trent affair will not harm the cotton profits he has made; the message that came by the Asia seems to imply the 4 captives will not be surrendered; the London Times implies the war can only be averted if the captives are released; the nation mourns the death of Prince Albert; thinks the nation's sorrow may lessen the feelings of animosity toward the US; Margaret Addison invited him to stay with them during Willie Bold's holidays; told her he would let her know later what he would do; went to the Ex[change] room to read the message sent by the Asia after leaving the Addison's; they sat up late that night discussing the Trent affair and Prince Albert's death; wrote to Mrs. Addison and declined her offer; when Willie comes home, will stay next door as he did when the Hamiltons were there; Laura, Elizabeth, and Mary went to Mr. Green's to see the "extermination, speechifying, & bestowal of prizes"; Willie did well; Horatio Hughes came to call on him at the office yesterday; talked about the family; Hughes already knew that Rutson was married; told him his ideas about when the marriage took place; Hughes asked if the American laws concerning children born out of wedlock were similar to British ones; told him they were; talked about cotton and the prospect of war; gave him a copy of Nan's letters to read to his sister; got them back and gave them to Mr. Clunas to send to his wife; people who expect war do seem to think cities like New York would be attacked; some say that only the forts would be attacked, but he wonders if, after taking the forts, the British would not attack the major cities; a blockade of ports would not do sufficient harm to the North since they are self sufficient; Mr. Torr showed him the Manchester Guardian, which quoted the New York Times, as saying that the vote of thanks on the House of Representatives gave Capt[ain] Wilkes may not be the last work on the Trent case; the Guardian suggested that the article in the Times was written by [Secretary of State] Seward's order; does not think mediation is a likely option; everyone is waiting for the reply to the demand the English made for reparations; wishes he had sold all of his cotton and was on the way back to New York; his health is good; is going to T[ea] with the Croppers on Friday; Walker said he should write a sympathetic letter to Fontaine; although he sympathizes with him and Rutson, does not have the time to write either of them; news of friends. 8pp. ALS

It is difficult not knowing how America will respond to England's demands for reparations in the Trent Affair; there are many editorials in the London Times about it; the Society of Friends [Quakers] wrote to Lord Palmerton and urged peace and arbitration; the Times urges England to recognize the C[onfederate] S[tates of] A[merica]' Tom Bold expects there to be war if the captives are not released; so does everyone else; hopes Parliament feels otherwise; Tom does not think New York would be attacked in the event of a war, but he [RM] thinks attacking cities like Boston and New York would be part of the plan; Willie Bold is home for the holidays and he [RM] is not staying next door; had tea with Mr. and Mrs. Cropper, their daughter, Maggie, and young Mr. Weed; John Cropper is concerned about the stocks he had in American companies in the event of war; told him that he thought he would be

able to collect dividends after the war was over; John Cropper said that most of the men who write editorials for the Times are a bad lot; Mrs. Tom Irlam sent him some medical instruments to help his hearing but they were no use to him; will save them for Fontaine; the Croppers told him to sit in David Hodgson's pew at church, as it has tubes connected to the pulpit for deaf people; plans to give money to Elizabeth, Mary, and Laura for letting him stay with them so long and will threaten to find lodgings if they will not accept the money. 4pp. ALS

Spent time today reading the enclosed copy of his note to Mrs. Hamilton [not present]; had a lot of trouble getting the apples, since they are scarce this year and expensive; had to make three separate trips to order them and make sure they were delivered; Mr. Menlove went with him on the third trip; showed him where the Roes used to live; saw Mr. W. Barber today, who used to work in New Orleans; they spoke of American affairs; they also talked of the cotton market; Barber spoke of the G[rea]t[?] Eastern Steamship, which he still thinks will be profitable; he [RM] would not travel on it; saw Me. Atkinson, who used to live in Charleston, South Carolina and asked if there would be a relief fund set up for the survivors of the fire there; he did not know; spoke of the same issue with Mr. Menlove and Joe Yeomen; ; Joe said he should not put his name down if he contributes, because it can be construed as being disloyal to the Union; Jpe said that there was talk of setting up a subscription for the same cause in New York; hopes that other northern cities would do the same; yesterday sent a copy of the letter he sent to Mr. Fred[eric]k Rodewalk; received a reply today; quotes some of the letter; Rodewald thinks war between England and the North is inevitable; he also thinks they will not receive cotton from America for a while; Rodewald expects France and England to break the blockade of the so[uthern] ports; disagrees with him; thinks the cotton situation depends on what happens between the North and the So[uth]; it was rumored that Mason and Slidell were released; does not believe this but expects to hear the news soon; was upset to discover that he had more cotton than he thought he did; would have made more money on the cotton he sold today if he had sold it sooner; (4 January 1862) enclosed a newspaper clipping about Alfred James's wedding in Mary Bold's letter [not present]. 8pp. ALS

The plans he wrote about yesterday [to give money to the creditors of James Maury and Sons] will not come about; today they hear that the U[nited] S[tates] Government is bankrupt and that No[rthern] banks have stopped specie payment; previous suspensions of this sort were the result of over trading, but this is not the case this time; the Northern States are full of specie; blames Congress for this situation; since they did not tax property as he thought they should; Congress keeps voting to give money to the war, but hey did not tax propoerty as he thought they should; Congress keeps voting to give money to the war, but they did not make provisions for obtaining that money; thinks that the North has now lost an advantage over the South; if taxes are imposed now all they will be able to do is slow down the process of depreciation of paper money issued by the Treasury; paper money will become less valuable as the war goes on; now the North and South are both headed for financial ruin; des not expect the war to end soon; does not think separation would last long if there is an early peace; if the war lasts past the planting season the South will have to find new employment for at least half of the slaves who now do agricultural work; they should be taught handicraft and manufacture; southern society will be entirely changed by their push for independance; thinks they would eventually emacipate the slaves; her stocks are no longer good investments; only gold, real estate, and commodities will be worthwhile now; advises her to sell the stocks and put he money into gold or A/1 bills of Exchange; New York banks have lent all their capital to the Gov[ernment]; which may be safe; it will be hard for them to use their deposits safely though; would rather invest in U.S. stocks than bacnk stocks; losing a year's interest would be less than losing money from the stocks themselves; does not expect northern currency to depreciate as quickly as southern currency did; money in Richmond I at 40 p[er]cent discount; thinks the Bank suspension is designed to breed discontent in the US army and make northern civilians want peace; Matthew could probably tell her all of this but he wanted to make sure she got his opinion too; she said the country needed to undergo deep humiliation before the situation was fixed; thinks there is more still to come; Mr. J. Wakefield Cropper likes Mr. Weed; (15 January) received her letter of 29/30 December; assumes she anticipated the suspension of specie pay[ment] from her comments about selling stocks keeping money in England; thinks she should consider how long the war will last and the possibility if wholesale taxation; the North bis weakened by this; Matthew does not seem as concerned by these events as he should be; thinks he may be of more use in England than in New York now; asks her to show Matthew the letter. 10pp. ALS Bears ANS from Matthew Maury, to his sister, Ann Maury, [New York,Ny], 31 January [1861]. Expected to have had Matthew Fontaine [Maury?]'s letter back and to have received news about what actions were being taken; was disturbed by his comment that Matthew Fontaine would be better off in prison if he intended to join the South; is concerned that his nephew's statement about the actions the English consul might make people angry. 1p. Forgot to return the letter from their nephew Matthew Fontaine Maury; now does so and thanks him for it; has urged his brother and sister to try harder to get them released, but has far as he knows, they are still in prison; thinks Lord Lyons got in touch with the boys again, but does not know what he said; Mytton says that the family in New York thinks that the boys should appeal to [Secretary of State] Seward, who is supposed to be sympathetic to their cause; Ann received a letter from Matthew Fontaine, who was very upset by the death of his fiancée; Walker has been corresponding with both boys, but he never tells anyone what they say to him; Walker has visited each of them once and wants to go again; visits must be supervised, and all letters must be inspected; thinks that the letter he [HNH] got from Matthew Fontaine must have been smuggled out; neither of the boys had the British consul's shield for the letters they carried; both of them knew they were breaking the law; thinks that putting the consular seal on the letter's they carried from New Orleans was wrong of Mr. Meere's representative; will tell him if he hears any good news. 2pp. Cy of ALS

Received their letters and is glad that Fontaine is at 4th Street; hopes that Rutson will be released soon ; hopes Fontaine will stay at home for while so that he can get his spirits back up; the fact that Mr. McLane's friend helped Fontaine write the letters to Lord Lyons explains why they are so well written; if there is peace soon, it will have to be by mutual reunion of North and South; thinks the North is carried away by their victory at F[or]t Donelson; they have not yet conquered the South; since the South seems determined not to give in, the North will not be able to force them back into the UNION; Eastern V[irginia] and eastern S[outh] C[arolina] have always been stronghold of successionist feeling, they would also have to submit to the North; thinks Gen[eral] Burnside should try to hold Wilder [?]; has always thought that the rural areas of the South were not unified about succession; thinks they will tire of the war sooner than the southern city dwellers; they should realize that slavery will come to an end if the war drags on, since slaves' status will increase if they have to do non-agricultural work; U.S. stocks are now in greater demand in London; the English population thinks the war will end soon because the North will run out of money, instead of winning with their superior armies; is not sure what to do about cotton; would give up profits if there could be peace; are going to "meat-tea" at the Dingle house on Friday; (6 [March]) sold 194 surats in the morning; this has lifted his spirits. 4pp. ALS Bears ANS from Matthew, undated, saying that only 69 [surats] were sold.

Had been thinking of writing to her about Johnny [Maury, son of Matthew F. Maury]; is sorry for his mother; had supposed that she would be crushed by her son's death, but she has been supported by God; she said that she had made up her mind to give Johnny up when he went into the army; his mother had hoped that something would be left to remember him by, but the manner of his death prevented this; she believes he is with God; Dabney Maury's letter gave them hope that Johnny might be a prisoner; they heard from Nannie, though, that no one really had any hope; yesterday they got a telegram from Dabney saying that Johnny was not a prisoner and there was no hope that he was alive; his mother cried, but this morning she was very composed; Cousin M[atthew F. Maury] would be comforted if he could see how well his wife is doing; news of family; has not seen Charles for two months and is sick of it; (27 February [March?]) is glad the Cousin Lewis made it to England; likes the name for the baby [Leonard Turner Maury] has not been to Uncle Jourdan's for two months, although she wants to go the roads are impassible. 6pp. ALS

Encloses a copy of the telegram he sent him yesterday in Lewis's name [not present]; since today is so wet and cold; perhaps he decided to stay home instead of going to Balt[im]o[re]; since Lewis will have so much to do there; look for a schooner to go to Glo[uce]ster [?] to bring their goods to New York; it may be all right if he stayed home; Lewis is accompanied by an old former housemaid of theirs, who will help Nan pack and help look after the boys on the trip; supposes they will arrive around 1 May and that Lewis will follow a few days behind them; he will come by steamer from Norfolk, Virginia, along with their faithful boy, Robert, and the livestock; received the title and deed yesterday and paid \$4000 cash; the lawyers will send the deed to be recorded in the Suffolk Co[unty] Court; bought fire insurance for the buildings and furniture; Lewis is optimistic about the future; sends love to his wife. 2pp Cy of ALS

does not write to her often,, but has always been fond of her, ever since she first met her in 1833; she [SFM] was mending stockings, and she felt sorry that she had to work so hard, so she bought her new ones; if she goes to England this summer as planned, she will bring six pairs of quality English

stockings, for old times' sake; does not buy American stockings; never writes what she intended to write in letters; had planned to write about Nan; was reminded of her [SFM] father, though, and his kindness to her father; has a good memory for trivia; has always thought that she would be better and happier if she had a sister; Nan and her three youngest boys [Charley, Turner, and Rutson] are with them; they all look well except that Turner has had several chills; Lewis was well when he was here, and it is hard to realize how ill he has been; does not think Lewis could have lived through another season; is anxious about the plan, since it is her own; visited the area of the farm last summer with Miss Mordecai to see her [Miss M] niece, and everyone looked healthy; it is close to the New York markets, too; although that Lewis and Nan could come there because of health reasons; when she found out they could not make a living in Gloucester, Virginia, she knew they had to leave, no matter what the cost; feel sorry for Lewis, because he has always been so generous, and now he is entirely dependent on others; is sure that he is relieved that Jody would not have been able to handle it; it is different with Charles, because he has the house in Washington to fall back on; Lewis has nothing; knows that Nan would have liked to have been near her [SFM] if she could not be with her immediate family; she thinks of her as a sister; thanks her for confiding in them and asking for brandy for Cousin Eliza; if there is anything else they need that they cannot get in Charlottesville, they would be glad to help out; Harriet and Nan have both named their youngest sons after their Uncle Rutson; feels it is a well-deserved tribute, since Rutson has been like a father to them; he has been primarily concerned with their welfare for the past 16 or 17 years; thinks the boys would have done better if he had not given them money so often; sends love to the family; she gets letters sooner if they are addressed to 17 East Fourth Street rather than the office; the house is the same one she has always lived in but the number has changed; when she writes to Nan or Harriet, she usually includes a tract for the children; does so now [not present]. 6pp. ALS Includes Ts of ALS, 3pp.

Memory is strange; when he thinks of 1838, he remembers a birthday dinner; Mr. Hawks was there, he was just beginning his "Church Review" and writing savagely about Aaron Burr; in 1838 he was the Astronomer for the Exploring Expedition; Jones was planning to remove Glynn and make him [MFM] the Hydrographer of the Expedition; decided that he did not care who the commander of the Expedition would be, because he [MFM] would get all the praise; refused to lend himself to ousting [?] Glynn; soon Jones gave up and he [MFM] was ordered to Washington; it was very cold, and she thoughtfully sent a woolen shawl for them to wrap Nannie in; Lewis [Wm. Lewis Maury?] was in cahrg[e] of he luggage, and the Green chest got left behind; the Expedition had been transferred from Sec[retary of the Navy] to Poinsett[?], Sec[retary of] War; Poinsett [?] asked him to provide a list of officers regardless of rank, who would be qualified for [the command of] the Expedition; thins now that he expected him to name himself in command of it; did not feel as though he had the right to make distictions among officers, so he gave him a list of all the officers; the command was given to Wilkes [?]; is proud that he kept his integrity; had only intended to tell her that he is interested in their Welsh cousin, but he has now run out of room. 4pp. ALS Including Ts of ALS, 2pp.

Is satisfied with that he [WM] is doing in the tabacco business; the consignments he got will give them a reputable appearance; if he is also productive in cotton, they will earn lots of money, since cotton exports from the U[nited] S[tates of] A[merica] last year to Liverpool increased 18 times; could not help but laugh at what he said about 58 [a client?]; was finally able to sell a consignment of Hera Tips[?] belonging to Mr. Cha[rle]s C. He [Wm] has been told that he is not to engage in speculation; his [WM] father is disgusted with speculation and has no intention of taking any share of a ship; they will attend directly to their commission business; spoke with John Ewart about the Virginia business; he says that they have not solicited it; he said, about Rutherford. that he set them a consignment last winter, unsolicited; they do not intend to advise them regularly; said it was well-known in Virginia that they did not want consignments; told Mr. Ewart that they did not want to sell tobacco through him; thinks they should give Harmony's tobacco to Brown & Son, but Mr. Maury is opposed; it is in their best interest to keep on John Ewart's good side; since their business will have to go through his house, they must remain on good terms; tells him to be very cautious about the way he says anything about them; he may say they are brokers and do not want commission, but he better not say anything about how things are done; he should not tell people that Ewart sells better than they do; he should play up their own role in the proceedings, when he was in Virginia, always took care not to mention any brokers; does not want him to mention they are considering being their own brokers; Matthew is too young now to help them, but by the time he [WM] returns, Matthew should have a good sense for tobacco; the tobacco business is the least valuable from America; they should not neglect it, but they ought to try to get into the cotton business as well; they will make more money that way; he will see Charles William about the tie he gets this letter; he will introduce him to all their friends; they have not told Mr. Williams's correspondents; asks him to send them a list of every house he knows of that might authorize them to write to them; they are making a new price current and will send them regularly to him. 9pp. ALS Bears N, . Received his letter; gives him a copy of his compilation from the Board of Trade returns [not present]; if they look at the Oldham Strike as equaling 50,000 bales, the figures show that the production this year would equal that of last year; this is in spite of the New Factory Act which reduces the hours of labor more than three percent; the demand for Goods and Yarns was not up to their present weekly production; was surprised at the price of "Spots" [?] at Liverpool; thought the price would not decline until January and February; the receipts at their ports cause mistrust of the reports of the National Exchange and Wash[ington] Bureau; a lot of their exports have gone to France and the Continent; Liverpool is getting more than the weekly consumption of American [cotton?]; the importers do not want to hold stock. 2pp. Cy[?] of ALS Bears N, undated. Thanks Miss Maury for the gifts of "eyes," Turban material, cravat, and curls; hopes Mrs. Johnson and Mr. Gilpin will be happy in their intended union; Mr. Madison health has not improved; Mr. Madison sends remembrances to her father and regards to her brother Rutson Maury. Acc. 1998.49 Addition

With transcript:

I have just received my dear friend your valued package in good condition and by you to accept my best thanks for its handsome and useful contents. The eyes suited my Husband so entirely that he will enjoy the use of them as well as myself. One piece of Turban material the cravat was appropriated by my son to himself as articles chosen by you. Anna cast a partial eye on the curls which I placed on her head and my own is about to be decorated so you will perceive the goods you have done for us all. We were much gratified to hear that you all had reached New York in health and without accident at a time too, when the world seemed in commotion either with pleasure or business. We hope your brother may have prosperous gales and a speedy meeting with his family. We sincerely wish that our friends Mrs. Johnson. Mr. Gilpin may be happy in their intended union which we prepared to expect by the rumors which had reached us. Mr. Madison's health has not improved since you left us. We hope however that in the vicissitudes it has experienced that the mildness of the present season may be favorable to it. I understand from Washington friends now with me from Warrenton Springs that the crowd has increased there, and the accommodations of course were less attractive to visitors in search of health and quiet. Mr. Madison offers his particular remembrances to your Father and hopes the firmness of his constitution will subdue the cough you complain of before he is obligated to encounter the season of winter. I write always in these hopes as he does with me in affectionate salutation for you and regard for your brother Mr. Rutson Maury. D.P. Madison. Acc. 1998.49 Addition.
